

Maxym R.

Senior Python Django developer

I am a senior software development engineer with more than 6 years of experience. In my previous roles, I led the development and deployment of mission-critical features, optimized data ingestion and rendering speed, and managed the migration of Kafka services. Also led teams, managed server applications using Django and Flask, integrated various third-party APIs and worked on CI/CD. Specializes in Python, Django, Flask, FastAPI, PostgreSQL, MySQL, Redis and OpenSearch.

I strive to improve my skills in working with advanced cloud architectures and improve my leadership abilities.

I work with the such technologies: Python, Django, FastAPI, Docker, GraphQL, Redis, MongoDB, Linux, REST API, SQLAlchemy, OpenStack, RabbitMQ, PostgreSQL, Kafka, pydantic, Kubernetes, asyncio, Docker Compose, OpenSearch.

Achievements:

- Team Leadership: Managed a team of 4-6 engineers at Avada Media, led the development of back-end applications in Django and Flask and fostered a collaborative and efficient work environment.
- Third-Party API Integration: Several third-party APIs are integrated, including social media, e-commerce platforms, and CRM systems, enhancing the app's compatibility and feature set.

Professional skills:

- Programming languages: Python, JavaScript
- Web frameworks: Django, Flask
- Databases: PostgreSQL, MySQL, MongoDB
- DevOps tools: Docker, Kubernetes, CI/CD
- Frontend technologies: HTML, CSS, JS, React
- API: REST, GraphQL
- Version control: Git, GitHub, GitLab
- Testing: PyTest, Selenium
- Working with cloud services: AWS, Google Cloud, Azure
